Email : abhishek.nitmn@gmail.com | Phone No: +91 9720409597 | [Linkedin](#) | [Github](#) | [Portfolio](#)

Address: Bhind, Madhya Pradesh - India, 477001

EDUCATION

National Institute of Technology, Manipur

Bachelor of Technology (B. Tech.) - Computer Science and Engineering

CGPA : 8.75

July 2019 - June 2023

EXPERIENCE

Web Developer Intern

November 2021 – January 2022

Wizegrid

- Developed Search bar Using **Elastic search** for searching users profiles in a database of **100,000 users**
- Integrated Mailing Services with **Auto Mail Triggering** using the **Nodecron** Library for incomplete Profiles, the remainder for accepting session requests, along with Managing Database and API on the Backend.
- Facilitate **payment method** by integrating Paytm Payment gateway .
Tech Used : Aws OpenSearch, Nodejs,, MongoDB, Express,, Reactjs, Pepipost

Backend Developer Intern

July 2021 – August 2021

Encomece

- Implemented **2-factor authentication** with facilitated prevention of brute force login attempts and Blocked User Profile for 24Hrs from Scratch and developed Backend API.
- Developed **Admin panel** with feature like uploading course videos, managing course and user data in a **team of 6-member**.
Tech Used : Nodejs, Mongoddb, Express, Passport, Reactjs

DSA Teaching Assistant

January 2021 – May 2021

Coding Ninjas

- Debugging code, creating an algorithm for a problem, and explaining the underlying concept.
- Solve **900+ doubt** with an overall rating of **4.74/5** rating

PROJECTS

DSA TASK MANAGER | *Nodejs, MongoDB, Cloudinary, Passport-Google-Auth, Ejs*

- Developed a web app **DSA TASK MANAGER** using **Nodejs, MongoDB**, and **EJS** which helps us to manage our **day-to-day learning** and track record of solved questions.
- With **Key Feature** like Add, update and delete questions, and **showing today revision questions** and button to random pick question from list of questions.
- **Sign-In and Sign-Up** facility has been provided using Google **OAuth** Authentication for the users.

Postgram | *React.Js, MongoDB, Node.Js, Socket.io, Git, Rest Api, JWT*

- Developed a social media application using **MERN Stack**, where people can make connections by searching profiles, chatting with friends, and sharing and liking posts.
- Added features like **showing suggestions** to make connections and a messenger to chat with friends and **show online friends** and fully **mobile responsive**.

TECHNICAL SKILLS

Expertise Area : Web development, Data Structures, Algorithms, Object-Oriented Programming.

Programming Languages and Technologies : C, Java, Python, React.Js, Javascript, HTML, CSS, Bootstrap, Material-UI, MongoDB, Elastic Search, MySQL, Node.js, Express.js.

Developer Tools: Git and GitHub, VS Code, Visual Studio, Eclipse, Heroku.

Technical Courses and Electives: Data Structures and Algorithms, Operating Systems, Database Management Systems, Object Oriented Programming in Java, Computer Networks.

ACHIEVEMENTS

- Secured **Global Rank 720** in Leetcode Biweekly Contest 68
- [Leetcode](#) : Maximum Rating – **1,704(3*)** | Solved over 500 problems .
- Secured **All India Rank 328** in Coding Ninjas Ninja Hire 2.0 [Certificate](#)
